Ans Air transport is the fastest means of transport, helicopters and aeroplanes are means of air transport.

~~Transport~~

~~20/11/23~~

Rudolf Diesel invented the diesel engine.
Nowadays, most of the vehicles are run by diesel.
Gottlieb a German engineer and Carl Benz, an American invented the petrol engine. Both the scientists put their engines on the road in 1886. They used their engines in cars and buses. Nowadays, Compressed Natural Gas (CNG) is being used to run motor vehicles.

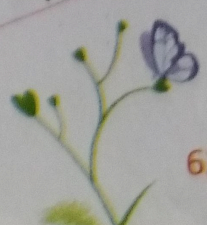

The Wright Brothers, Orville and Wilbur invented aeroplanes. The first helicopter which could fly without a pilot was invented in 1784 by two French men named Lauro and Bienvenu. The latest invention that has enabled man to go into space was invented by Robert H. Goddard. It is rocket.

Thus, the above mentioned scientists have made our life more comfortable easy by their inventions. We ought to be grateful to all of them.

Things to Do

A. Choose the correct answers.

1. Early man used to travel :
(i) by carts
(ii) ~~on foot~~
(iii) by planes
(iv) all of them
2. The fastest and the cheapest mode of transport on land is :
(i) ~~trains~~
(ii) aeroplanes
(iii) helicopters
(iv) ships
3. The first railway track in India was laid in :
(i) 1753
(ii) ~~1853~~
(iii) 1953
(iv) 1932
4. The airport in Delhi is called :
(i) Sahara International Airport
(ii) Subhash Chandra Bose International Airport
(iii) ~~Indira Gandhi International Airport~~
(iv) Menambakkam Airport

5. A lake of salt water separated from the sea is called :
- (i) stream (ii) oasis
(iii) lagoon (iv) desert
6.invented the steam engine.
- (i) Robbert H. Goddard (ii) Wright Brothers
(iii) James Watt (iv) George Stephenson
7. Aeroplane was invented by :
- (i) Wright Brothers (ii) Launoy
(iii) Gottieb (iv) Carl Benz
8. The International air service of India is :
- (i) Indian Airlines (ii) Alliance
(iii) Air India (iv) Airports India

B. Match the following.:

- | | |
|--|-------------------------|
| 1. Rocket | (a) Bengaluru |
| 2. Kempegowda International Airport | (b) Robert H. Goddard |
| 3. Diesel Engine | (c) Delhi |
| 4. Helicopter | (d) Chennai |
| 5. Menambakkam | (e) Launoy and Bienvenu |
| 6. Indira Gandhi International Airport | (f) Rudolf Diesel |

C. Fill in the blanks.

1. Steam engine was invented by James watt, in 1769.
2. Petrol engine was invented by Carl benz and Gottlieb.
3. Trains are the fastest moving vehicles on land.
4. George stephen son is known as the 'Father of Railways.'
5. Grand Trunk Road connects Kolkata to Peshwar in Pakistan.

Activity

Handwritten signature and date: 30/11

Classify the following as means of land, water and air transport :

horse cart, motor cycle, ship, train, car, rocket, jeep, bullock-cart, ferry, aeroplane, motorcycle, steamer, tractors, auto-rickshaw.
